

Appendix D - HRM and Stat Can Data Mismatch

DA 12090530 Fairview is bounded by Willett and Sheradon on two sides. While this DA is outside of our area of interest, it illustrates the apparent arbitrary DA and DB boundaries.

- The DA has three DBs
- Both DA and DB boundary lines cut through buildings
- It is not clear what buildings are included in each DB.
- Neighbouring DAs also affected
- For the DB showing 56 dwellings, three of the four buildings would be either 61 or 64 dwellings. The actual DB has no buildings shown inside it.
